

# JSPL Sitemap & Wireframes

Note\*-

1. Wireframes highlighted in this document are low fidelity wireframes, mainly highlighting the placement and treatment of overall page and its elements. Detailed design specifications will be part of the design mock-up
2. The wireframes are created, based on assumptions, as final content is currently not available, therefore the wireframes might need changes or iterations based on final content
3. The inside page wireframes highlight only the first three (of four) columns of the content area (except Knowledge Portal – Gurukul section which has a different layout due to the nature of content and also because of no shortcut links)
